Why should you apply?

With the generous help of donors within the LTC district, the Foundation is now able to disburse over $100,000 in scholarship assistance per year. Some of this support could be yours!

We know you’re skeptical, as there are many misconceptions that come with scholarships. Many of these prevent deserving students from receiving support simply because they do not apply.

Misconception #1: “Only students with high academic achievement receive scholarships.”

The Foundation offers over 90 scholarships a year, and each scholarship has varied criteria. Although some of the scholarships will be merit based, it is not the deciding factor. The scholarship criteria is based on a wide range of interests.

Misconception #2: “You cannot receive a scholarship if you do not have financial need.”

Although some of the scholarships offered are based on financial need, others focus on a specific program or are general support scholarships.

Misconception #3: “Scholarship applications take too long and there is too many of them to fill out.”

ONE application and recommendation form are all you need! The internal team will sort and filter your application to all eligible scholarships.

Misconception #5: “I will not receive a scholarship.”

The scholarship competition is competitive, but you would be surprised at how many scholarships you do qualify for. With over 90 scholarships awarded annually, you have a great chance in winning!

Do not let another moment pass by, submit your LTC Foundation Scholarship Application today!

If you are facing any other scholarship obstacles, please stop into the President’s Office. We are here to help!

Scholarship Fast Facts:

1. Approximately $100,000 distributed in scholarships each year
2. Average scholarship award: $800
3. Scholarship money does not need to be paid back
