

BlueJeans Meeting Software

Students or meeting attendees could attend from home or office. **Each would need a computer with a web camera and microphone. Either built in to the computer or web camera or a headset type of device.**

In preparation to you attending class/meeting from home, you need to download some software:

Go to this link <https://bluejeans.com/7955352486>

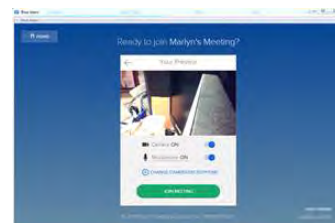

Then launch or download.

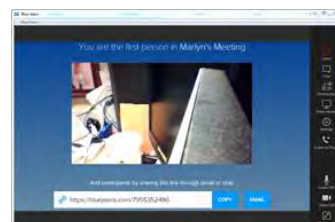

Select computer audio

Make sure camera and microphone are on:

Select Join Meeting and then you should see yourself. For an actual class, you would see the instructor. Let me know if you want to test and I'll connect for a demo.

Please contact the [LTC Helpdesk](mailto:LTCHelpdesk@gotoltc.edu) (LTCHelpdesk@gotoltc.edu) if you have questions.
