

LTC Vaccination Statement

All students enrolled in health occupation programs, that also have a clinical/practical experience at a school, clinic or hospital are required to complete a student health verification form. These requirements have been requested by the various clinical sites.

These requirements include; proof of chickenpox titer or 2 vaccines, Tdap booster within the last 10 years, proof of 2 MMR's or Rubeola, Mumps and Rubella titers, a TB skin test/TB Gold blood test/or record of previous positive testing, and chest x-ray in the last year, current season flu shot, record of completion of the Hepatitis B vaccine series or to sign a declination form, physical within the last 3 years, and student signature on the form.

Students must have this information on file and up to date, in the College Nurse office at LTC to be eligible to attend clinical.

Questions about the health form requirements can be directed to the college nurse, 920.693.1111.
