

Policy Title LTC Energy Management	Original Adoption Date 06/05/12	Policy Number FS-671
Responsible College Division/Department Facilities	Responsible College Manager Title Campus Facilities Manager	
Policy Statement		
<p>The LTC Energy Policy promotes better energy management by maximizing energy efficiency and reducing waste.</p> <p>Energy management is a tool to reduce costs and provide the proper environment for carrying out the mission of the college.</p>		
Reason for Policy		
<p>It is everyone's responsibility to ensure every reasonable effort is made to conserve energy and natural resources.</p> <p>Energy conservation efforts focus on:</p> <ul style="list-style-type: none"> • Using the minimum amount of energy needed to support an environment that meets the college's standards for temperature settings. • Minimizing heat loss and gain. • Ensuring optimum efficiency in the operation of energy converting, transmitting, and consuming systems / equipment. • Life cycle costs (to include the cost of energy) as an evaluation criterion for selecting equipment and designing new facilities. 		
Historical Data, Cross References and Legal Review
