| Policy Title Program Advisory Committees | Effective Date 1979 | Policy Number IN-087 |
| Responsible College Division/Department Instruction | Responsible College Manager Title Vice President of Instruction | |
| Policy Statement | | |
| <p>Each Wisconsin Technical College System district shall establish and maintain active program advisory committees for all State Board approved programs.</p> <p>Advisory committees shall be established to oversee each occupational program. The purpose of the committee is to advise district staff on the provision of relevant career and technical education. The committee can oversee either a single or multiple program structure with a related occupational focus.</p> <p>The membership of all advisory committees should include equal representation of employers and employees and be representative of geographic location and racial and gender diversity. Participation on advisory committees by students and representatives of secondary and postsecondary schools is also highly recommended. Deans may choose to implement a multiple program committee structure when programs have similar characteristics such as program outcomes or technical content. The membership of multi-program committees shall be balanced to include individuals who represent the targeted jobs.</p> <p>The district board and staff members may request the advice and assistance of advisory committees in selecting and purchasing equipment, in preparing course materials, in developing instructional and delivery methods and other advice needed for quality instruction and college or program accreditation.</p> | | |
