

**LAKESHORE**  
TECHNICAL COLLEGE

Summer 2022 Class Schedule  
As of: Jun 13, 2022

Current students may check the updated class schedule at [MyLTC](#).

If you are not a current student, please check [Find a Class](#).

## Important Times and Dates

In person registration will be on Monday through Thursday between 7:30 a.m. and 5:30 p.m.  
and Fridays between 7:30 a.m. and 3:30 p.m.

**Note: Instructors will be providing additional details in Blackboard regarding the class schedule and other updates one week prior to the start date.**

### Instruction Mode Key

Accelerated*	Instruction is delivered in a face-to-face accelerated (time-compressed) format. These courses require fewer class hours and are completed in less than 15 weeks. Online activities may be required.
Blended*	Instruction is delivered weekly through both online and face-to-face instruction. Approximately 50% of the instruction is delivered through each method.
CBE*	This outcomes-based approach to earning a college credential organizes academic content around competencies and measures academic progress as the attainment or mastery of competencies. CBE is an academic model in which the time it takes to demonstrate competencies varies, and the expectations about learning are held constant. Learners demonstrate mastery through multiple forms of assessment, often at a personalized pace.
Computer Conferencing*	Instruction is delivered real-time using computers for audio, video, and/or graphics.
Flex Lab*	Schedules are specifically designed for students who cannot attend regularly scheduled day or evening courses. If you are a self-motivated student who wants to work on a degree or update your skills at your own pace, the Flex Lab is a great way to meet your goals.
Hybrid*	Courses that combine online and face-to-face instruction (not including any one-time face-to-face orientation or off line testing/evaluation). At least 50% but less than 100% of course instruction is delivered using the Internet combined with face-to-face instruction.
iFlex*	iFlex is a course integrating two delivery modes allowing students flexibility of attending online and/or face-to-face. Face-to-face instruction would meet weekly not to exceed 50% (hybrid delivery mode) of total course hours of a traditional delivery format. Students would have required equitable online components (assessments and lecture materials are the same, whether sitting in the classroom or learning online), with lecture content recorded and available online. Students have the ability to migrate between the two delivery modes.
Independent Study*	Instruction is delivered with preplanned learning experiences identified jointly by instructor and student.
In Person	Instruction is delivered in a face-to-face setting. The course may use the Internet or other technology to facilitate instruction.
Online	Instruction is delivered 100% through the Internet. Courses require work completed by specific deadlines and may require supervised onsite testing.
Video Conference*	Instruction is delivered with students participating from designated sites. Live interaction occurs between instructor and students via two-way video conferencing. Online activities may be required.
Work Based Learning	Work based learning is a work based educational experience that provides students opportunities to attain work that is correlated with program instruction.

\* Innovative Technology Course Mode

**Key: U-Sunday, M-Monday, T-Tuesday, W-Wednesday, R-Thursday, F-Friday, S-Saturday**
