

STAFF UPDATE FROM PRESIDENT PAUL CARLSEN – April 21, 2020

Team LTC,

On April 29th the sixteen college presidents of the Wisconsin Technical College System (WTCS) will be meeting virtually to brainstorm system-wide approaches to increasing revenue. Some suggestions already being circulated include allowing all colleges to offer the Associate of Arts (which we have been advocating for), empowering colleges to provide institutional aid, and removing the \$10 per credit online course fee (which is an enrollment barrier). I am asking for your input on this. Please let me know what structural barriers you believe prevent us, and other WTCS schools, from increasing revenue. Then let me know how you think we would move forward if those structural barriers were removed.

Thanks, Paul Carlsen
