

## STAFF UPDATE FROM PRESIDENT PAUL CARLSEN – March 30, 2020

Team LTC,

As you know, the Governor's Safer at Home Order extends through at least 8:00 am on April 24<sup>th</sup>. However, yesterday the President extended the guidelines to avoid non-essential travel and to limit gatherings of more than 10 people until at least April 30<sup>th</sup>. What does this mean for the Wisconsin Safer at Home Order? I do not know. I am hopeful we will get clarity in the near future, but I cannot promise that. We will continue to share information with you as it becomes available and will adapt as needed.

I recorded another Panopto video for everyone. I *could* have put the content of the video in an email text, but I will not get any better at these videos if I do not do more of them. Again, forgive the audio...I will figure out how to connect my AirPods to my computer before the next one of these (I hope).

Thanks, Paul
