An Academic Support & Tutoring staff member will contact you shortly after the request is submitted.

## TIPS TO HELP YOU SUCCEED

### Communicate with your instructor:

Now that classes are being offered online, it is important to stay connected with your instructor.

### Be sure to check your LTC email and Blackboard announcements daily:

It is important to stay informed!

### Dedicate time in your new daily

**schedule for coursework:** Your schedule may look very different right now, it is important to set time aside to complete your work.

**Read the lesson plans:** These contain all of the information for assignments, readings, and discussion board postings for each week.

**Pay attention to due dates listed and plan ahead:** Don't wait until the last minute to complete assignments. If a problem would arise, it is harder to solve in a small amount of time.
