Scholarships for Military Spouses & Children

Our scholarship application is open year-round for students pursuing career and technical education programs less than 12 months in length. Students can apply at www.mcsf.org/cte. For programs longer than 12 months, our application is open from January 1 to March 1 each year. We are eager to get the word out to as many students as possible and your help is essential to making this happen!

For many military spouses, pursuing an education is an uphill battle. In a recent study by the [Department of Defense](#), 43% of military spouses expressed an interest in attending school; however, many stated that the steep cost education and financial difficulties were some of the main issues holding them back. As reported by the [Journal of Financial Counseling and Planning](#), more than one-third of military families say they struggle to pay the bills every month due to many aspects of military life that affect financial management, including frequent relocation, a high unemployment rate among military spouses, and a difficult transition into civilian life.
