

### **Ends Policy IV.A.: Workforce Development**

Lakeshore Technical College exists so the community workforce will be well trained, diverse, and flexible and will meet the needs of a changing marketplace.

---

#### **President's Interpretation:**

Lakeshore Technical College's purpose is to elevate the workforce of the LTC district, and those outside the district who pursue education with LTC, by ensuring all students have access to skills training and pathways which lead to meaningful, family-sustaining employment today and in the future.

### **ENDS POLICY IV.B.: Access & Affordability**

*Learning opportunities are affordable and accessible, within available resources.*

---

#### **President's Interpretation:**

LTC is open access (both in admission requirements and in delivery methods) and attending LTC should not be cost-prohibitive (both in tangible costs incurred by students and the opportunity costs realized when pursuing an education). LTC will prioritize resources to ensure LTC is meeting the most pressing needs of the district.
