

# RAM Tool Inc. Company Values

---

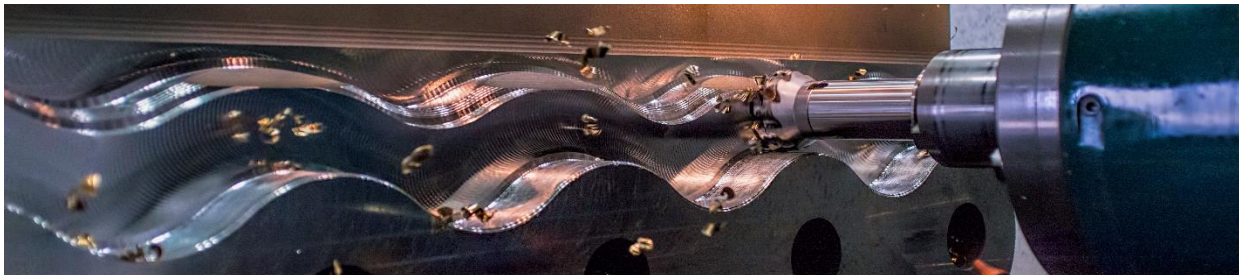

RAM Tool has had a progressive approach to detail and a slogan, “*When you’re in a jam, see RAM*” which is a tradition that is still applied today. We take pride in being a full-service manufacturing facility with state of the art equipment coupled with a highly experienced workforce. Our employees take pride in the work they produce, knowing they make a high-quality product that will stand the test of time.

## RAM Tool Inc. Student Youth Apprenticeship Program

---

The Ram Tool Student Apprenticeship program offers students the opportunity to gain “Real-World” experience in a manufacturing facility and will provide you with an opportunity to learn more about your skills, interests and strengths.

Our program allows for flexibility in your scheduled hours based on your school academics and extracurricular activities. We offer hours between 6am – 7:30pm, Monday through Friday during the 1 or 2 year apprenticeship program. Our Student Apprenticeship position is a paid, student work- based, learning experience. Our facility is located in Grafton WI, less than 1 mile off Hwy 43 & Hwy 60 exit.
